Please, explain your motivation to become CDN Executive Committee member:

I am interested to work in the CDN Executive Committee, because I want to use my knowledge and skills. I have huge experience in creating and implementing projects, most of which are related to the green ideology.
I'm skilled and experienced activist, dedicated to the goals of the Green Idea, purposeful, responsible, stress-resistant, detail-aware, sociable, hard-working, motivated to work in an international

environment. I have communication and public speaking skills, Project and event management experience, also I have teamworking and leadership skills.

I have a lot of interesting ideas and initiatives and I'm motivated to implement them. I believe that I can realize myself and benefit the Executive Committee.

Please, shortly present your previous CDN experience:

I haven't been directly involved in the CDN activities yet, but I have been observing the activities of the working groups and the work of the CDN. In addition, I participated in FYEG events.

Being a member of the Executive Committee is a very demanding task that requires inter-cultural competences, working under pressure, deadlines, in non-familiar environment, dedication to the goals, and frequent travelling. Please explain briefly your ability to respond to these challenges and requirements:

During my activism, I have learnt how to communicate properly, to convey ideas correctly. I also worked in various non-governmental organizations and studied under different conditions (especially working under pressure and deadlines).

Also, I work with foreign students, students from annexed and occupied territories, inclusive students and other groups that require special attention. Particular attention is paid to the integration of such students, legal, psychological and material assistance, as well as their involvement in university activities. In addition, I have participated in many development programs, trainings and many different courses.

For 3 years I worked at 2 international companies, which gave me a lot of experience in communication, project management and coping with various challenges.

That is why, I can say, I am stress-resilient, cope with various challenges and love working in an international and inter-cultural environment. I easily endure frequent travelling and easily adapt to a non-familiar environment, and I also have good communication skills. The specifics of building an educational process allow me to spend a lot of time working.

What would you like to be responsible for in CDN during this mandate? What are your competences?

During this mandate, I want to be responsible for managing and coordinating working groups, as I have ideas for improving work, internal communication and communication with MOs. Also I would like to be responsible for organizing events and coordinating the training team, because I have a lot of experience that will be useful for the CDN.

Is there anything you would like to improve, implement or set for the future during your mandate?

I would like to improve the work of CDN on social networks, especially on Instagram and Facebook. For example, introducing project hashtags that make it easier for participants to find each other. I would like to introduce online flashmobs and challenges (on an ongoing basis) that would show solidarity with the Greens. For example, every month there is a "green day" when all the greens post themed photos combined by one hashtag.

One of my initiatives in the Student Parliament was also the rotation of working groups, and I would like to introduce this initiative in the CDN as well. For example, every 2 months 2 representatives of one working group move to another for a few days. As a result, they exchange experiences and communicate better.

I also have a lot of ideas for non-formal education projects and spreading of green ideology.
