➤ Name of your organisation: ➤ (in local language and in English)	<b>Зелена молодь України / Green Youth of Ukraine</b>
➤ Please explain your role in the organisation (member, activist, volunteer, position) and your main responsibilities:	<b>Member, responsible for international communication</b>
➤ Phone number of your organisation:	<b>+380934515776</b>
➤ E mail address of your organisation:	<b><a href="mailto:greenyouthukraine@gmail.com">greenyouthukraine@gmail.com</a></b>

<b>➤ Web site of your organisation:</b>	

<b>Please, explain your motivation to become CDN Executive Committee member:</b>
<p>I have big experience of activism. I was involved to the eco-activism and feminist movement. For the last 3 years, I have been active in the Ukrainian green movement. I am interested in working in the Executive Committee of CDN, because I want to use my knowledge and skills in the international level.</p> <p>I am sure my work will be fruitful, because I was working on the position of project manager. Also, I am a skilled and experienced activist, dedicated to the goals of the Green Idea, purposeful, responsible, stress-resistant, detail-aware, sociable, hard-working, motivated to work in an international environment. I have communication and public speaking skills, I have a lot of interesting ideas and initiatives and I'm motivated to implement them. I believe that I can realize myself and benefit the Executive Committee</p>
<b>Please, shortly present your previous CDN experience:</b>
<p>I participated in online webinars of CDN, General assembly in Belarus (March 2020), project "Art as a shelter"</p> <p>Also I'm a member of 2 CDNEE working groups (Gender and Alternative urbanization)</p>
<b>Being a member of the Executive Committee is a very demanding task that requires inter-cultural competences, working under pressure, deadlines, in non-familiar environment, dedication to the goals, and frequent travelling. Please explain briefly your ability to respond to these challenges and requirements:</b>

Since 2014, I have become an activist, which has allowed me to learn how to communicate properly to convey ideas correctly. I also worked in various non-governmental organizations and studied under different conditions (especially working under pressure and deadlines). For 3 years I worked at 2 international companies, which gave me a lot of experience in communication, project management and coping with various challenges. At the end of 2017, I became an activist of the student government of Tavrida National University, where I work with foreign students, students from annexed and occupied territories, inclusive students and other groups that require special attention. Particular attention is paid to the integration of such students, legal, psychological and material assistance, as well as their involvement in university activities. In addition, I have participated in many development programs, trainings and many different courses. I easily endure frequent travelling and easily adapt to a non-familiar environment, and I also have good communication skills. The specifics of building an educational process allow me to spend a lot of time working. In addition, I am stress-resilient, cope with various challenges and love working in an international and inter-cultural environment.

**What would you like to be responsible for in CDN during this mandate? What are your competences?**

I want to be responsible for one of the working groups and for social networks. Also I want to be involved in projects writing and implementing processes.

**Is there anything you would like to improve, implement or set for the future during your mandate?**

I would like to improve the work of CDN on social networks, especially on Instagram and Facebook. For example, introducing project hashtags that make it easier for participants to find each other. I would like to introduce online flashmobs and challenges (on an ongoing basis) that would show solidarity with the Greens. For example, every month there is a "green day" when all the greens post themed photos combined by one hashtag. One of my initiatives in the Student Parliament was also the rotation of working groups, and I would like to introduce this initiative in the CDN as well. For example, every 2 months 2 representatives of one working group move to another for a few days. As a result, they exchange experiences and communicate better. I also have many ideas for non-formal education projects and the spread of green ideology.
