**Please, explain your motivation to become CDN Executive Committee member:**

I was elected to the Executive Committee of CDN last year on the 2020 General Assembly. At that year, there was nobody from the previous EC going for the second mandate. Therefore, all of the people elected in the Executive Committee were very new and there was nobody from the previous EC to transfer knowledge and help the 'newcomers'. This made the work bit hard for the EC and many of the issues went back on the shoulders of the secretariat which had to play the role of transferring all the knowledge and help newly elected people to get to know. This is one of the main reasons why I have decided to seek reelection and help in the transfer of knowledge and the smooth start of the new EC work which faces a lot of challenges and great ideas.

I can also recall the moment when I started to consider for to seek reelection - during the EC meeting when we were discussing recommendations, ideas, and possible improvements to the coming Executive Committee. This became a very strong motivation for me - there are still so many things to work on, to improve, to make CDN more visible, explore finer structures, further politicisation and lastly help and engage with our organisations more actively, especially during these COVID time which has (in many cases negatively) affected our work.

**Please, shortly present your previous CDN experience:**

For the past year I have been a member of CDN Executive Committee. Before I have attended several events - both educational and statutory - organised by CDN.

**Being a member of the Executive Committee is a very demanding task that requires inter-cultural competences, working under pressure, deadlines, in non-familiar environment, dedication to the goals, and this being online work. Please explain briefly your ability to respond to these challenges and requirements:**

I have had experience with working under pressure, deadlines and a non-familiar environment, etc. even before being part of the CDN EC. But after spending a year in CDN EC, I believe, I am very comfortable and accustomed to inter-cultural competencies, working under pressure, deadlines, online work, etc.

**What would you like to be responsible for in CDN during this mandate? What are your competences?**

I would like to be responsible for enhancing CDN's structures, boost visibility, social-media presence. Also getting into organising statutory events and events with an aim to strengthen

political skills and improving political maturity of our organisations.

**Is there anything you would like to improve, implement or set for the future during your mandate?**

There are many things that can be improved but of course not everything can be tackled within the one or two mandated. I think that we can improve in the following year is boosting CDN visibility and social media presence, higher engagement with our organisation, exploring possibilities of structural changes.
